

02 | Filler

Creates a smooth and even surface for painting, ideal for fixing dents and scratches on vehicles

At COSMOS LAC, we believe that mechanics are the unsung heroes of the automotive industry. They tirelessly devote themselves to keeping vehicles in top condition, yet their invaluable contributions often go unnoticed. To honour their hard work and dedication, we created Master Mechanic – a line of spray paints specifically formulated with mechanics in mind.

Each product in the Master Mechanic line has been carefully crafted to streamline the workflow of mechanics, while providing optimal results. We acknowledge the demands of the industry and have crafted each spray with features like excellent coverage, unrivaled durability, and ease of application. Furthermore, our sprays are designed to dry quickly, enabling mechanics to complete their projects faster. They also boast resistance to chipping, fading, and peeling, ensuring that the results of their hard work are long-lasting.

At COSMOS LAC, we pride ourselves on supporting the underappreciated mechanics of the industry by presenting Master Mechanic. By using our line of spray paints, car care becomes a fine art and mechanics are the masters. Whether you are a professional mechanic or an automobile enthusiast, give Master Mechanic a try and encounter the difference our premium quality sprays can make.

# Master Mechanic

01 | Primer

Provides excellent adhesion and corrosion protection to the surface, making it the perfect basecoat for any automotive paint job

03 | Epoxy Primer

Highly durable and corrosion-resistant, it provides exceptional adhesion to bare metal surfaces, perfect for harsh environments and high traffic areas

04 | Wash Primer

Etches the surface of the substrate, providing excellent adhesion for subsequent coats of paint

05 | Plastic Primer

Formulated to provide excellent adhesion to plastic surfaces, ideal for use on bumpers, mirrors, and other plastic parts

06 | Control Guide

Allows fast detection of all sanding unevenness, pores, cracks and scratches during processing

# where car care is an art, and mechanics are the masters

10 | RAL Paint

Acrylic paint that provides a durable and long-lasting professional finish
